p. 2 Suspicion of Foul Play

About Oct. 1st, R. B. More, a lighthouse keeper
near Norfolk, Va., left that city in a boat for
Baltimore, intending to come direct to
Painesville, where he formerly resided. He has
not since be heard from. Mr. J. M. Benjamin, his
former partner here, received a letter from G. W.
Stevens, enquiring if Mr. More had been here.
Mr. Benjamin has written to the brothers of Mr.
More and other friends but no one has heard
from him. He had about \$400 with him when he
left Norfolk, and fears are entertained that he
has been foully dealt with.

Old Time Poetry.
We are under obligations to Capt. Geo. E. Paine for the MSS. of the following, which was sent to him by his uncle, the late Col. H. E. Paine, a number of years ago:
MONMOUTH, Ill., Feb. 14, 1876. }
My 57th Birthday. }

The following brief sketches of the Western Reserve were from the pen of your grandfather, Col. Eleazer Paine, when he was about to emigrate with his family from Hartford county, Conn., to Painesville, Ohio, in 1803. He came to Painesville in the spring of 1800, and remained there through the season. He then determined to make Painesville his future home. But sickness in his family detained them in the old Yankee State until 1803:

Ye swains who are virtuous, healthy and wise,
Who are possessed of activity and enterprise,
Who from truth and sobriety never will swerve,
Come emigrate with me to the Western Reserve.
Near the banks of proud Erie, my friends,
we will go,
To lands that with milk and with honey o'erflow.
Near the mouth of Grand River you will clearly observe,
A beautiful country called the Western Reserve.
There the elk and the stag in proud majesty stride,
While the geese and the ducks on those waters do glide,
And the fish for to comfort us will amply serve,
While we cultivate the soil of the Western Reserve.
There Nature's profuse and her beauties display
In hill and in dale with sweet blossoms so gay,
None Nature alone could so curiously carve,
A land so delightful as the Western Reserve.
At Elysian point Gen. Paine made his stand
And Walworth at Blooming-Grove, which is near at hand.
For encouraging migration many thanks they deserve

*There were honey bees in woods, some large swarms. They lived in hollow trees, which they made neat and clean for storing their honey.
General Paine and Judge Walworth came to Painesville with their families in the spring of 1803.

Local Attraction Jack (*Cleveland Penny Press*)

One of the distinctive characters about the docks is Beverly, the adjuster of compasses. He says he was formerly a pilot out of Boston. The iron ore vessels, strapped and strengthened as they are with iron are difficult to steer, from the fact that the iron about them causes the compass to deviate from its true course. He gets from \$60 to \$100 for adjusting a compass on a vessel and finishes the work in an hour. He states that the only point on the lakes where a compass can be made to point exactly north is on a line passing around the globe through Painesville. It is known as the line of no variation and the farther away from it a compass is placed the more it varies.

Dedication of the M. E. Church

Last Sunday was a glad day to the members of the Methodist Church and congregation of this place. The church edifice for which they have labored for years, and which has proved such a financial burden to them, was at last completed and ready for dedication. There were various services throughout the day. Dr. McCabe was able to announce near the close of the evening service the glad fact that the indebtedness was all provided for, and that the Church would be dedicated with no financial incumbrance upon it. Considering how largely all had given before, the amount raised during the day was very large. A very pleasant feature of the day was the presence of Mr. & Mrs. Eli Young, of Kansas City. No persons have done more than they in years past, by money and labor to build this Church.

--Local gossip is that Mr. Whiting's wife was a sister of a certain Mr. Rutherford and it is not mysterious perhaps that the suspicion that Mr. Whiting was giving his wife's treasures to Miss Rose should excite jealousy in the Rutherford family. Monday Miss Rose appeared at a saw mill (supposed to be owned by Rutherford and Whiting) to announce supper. p. 2 Attempt to Assassinate President Garfield Twice Shot but Still Living – The Would-Be Assassin Arrested

President Garfield was shot Saturday morning in the waiting room of the Baltimore & Potomac Railroad depot, in Washington. The assassin was apparently a half-crazed office seeker named Charles Guiteau. He shot the President in the shoulder and in the back going forward and

July 7, 1881

downward and through the right lobe of the liver. Before the President was moved from the depot to the White House, he sent a touching message of affection to his wife at Long Branch, who immediately started for Washington by special train. The physicians could not reach the bullet lodged in the groin and the internal bleeding gave rise to the gravest apprehensions. Secretary Blaine was with the President when he was shot. They were passing through the ladies waiting room into the main room at which instant the two shots were fired, and he saw that the President had fallen. Policeman Kearney, of the Island Precinct, who arrested the assassin gave his statement: Guiteau arrived at the depot an hour ahead of time and appeared very restless. Policeman Kearney heard him ask a hackman if he could drive him off in a hurry if necessary. Just then the President's party arrived and the shooting occurred. He ran after Geuteau, caught and arrested him. "In God's name man, what did you shoot the President for?" Guiteau replied, "I am a Stalwart and want Arthur for President."

The ball entering the back on the right side of the spinal column above the hip bone could not be found. The President was placed in an ambulance and the horse whipped all the way to the White House.

Charles "Jules" Guiteau, who shot the President, is about 40 yrs. old. He is the son of L. W. Guiteau, who lived at Freeport, Ill. About 25 yrs. ago, father and son moved to the Oneida community in New York. Next Charles went to Chicago and was a lawyer. He was not a foreigner, but of French descent.

Another Noble Gift

Mrs. S. W. Parmly last week, made the Disciple Church of this city another gift of a parsonage on Jackson street with seven acres of land attached.

After Three Years

There was a robbery of the Express Wagon 3 yrs. ago on July 1, 1878. On that day at noon, there arrived at the Lake Shore depot two express packages: One contained \$20,000 for the Trumbull Co. Bank, and one contained \$1,000 from a Cleveland bank to a house in Burton. The packages were put on the express wagon, Ed. Searles, the driver, with Dixon occupying the front seat, and Titus standing or sitting in the rear of the wagon. The money was in the express satchel on the seat. When the wagon arrived at the P&Y depot the money was gone. The three men were arrested but nothing could be elicited from them that could fasten conviction on them.

Last Wed., Mr. O. P. Quiggle, of Hambden, received \$230 from Terrance Prior, and the musty and moldy condition of a certain \$100 bill prompted him to inquire where Mr. Prior received it. Mr. Prior had negotiated a loan from Martin Noonan, of this city. Mr. Quiggle brought this to the attention of the general agent at Cleveland. Sat. evening Martin Noonan was arrested and put in jail. Daniel Noonan Jr. was arrested Sunday. Martin Noonan's house was searched and a tin box was found in a straw bed tick. Mrs. Noonan confessed that the box was part of the missing express money. In the testimony of 3 yrs. ago, it was shown that the express wagon on its way to the depot met Martin Noonan with a load of lumber. The statement is made that after the express wagon passed him, Noonan saw the package containing the money fall off, and picked it up and carried it home. Marshal H. M. Mosher was assisted in his arrest and search by F. M. Baker, L. P. Huntoon, J. C. McDonald, George Wilhelm, L. T. Blair, ex-Sheriff C. T. Morley; Hon. J. B. Burrows, Mayor; and H. S. Julier, express manager at Cleveland.

p. 1 The "Old Girdled Road" – Delivered before the Lake and Geauga Pioneer Associations at Perkins' Camp, Aug. 11, 1881, by C. C. Brunson

Since Oct. 23, 1819, I have been a resident of Talmadge, then in old Portage Co., but since 1840 in Summit Co. But my wife came with her parents into Mentor in 1812 and has resided in Mentor, Concord, Thompson and now in Talmadge. (History of the Old Gridled Road is given.) The Connecticut Land Co. at a meeting in Hartford, Feb. 23, 1797, decided to cut out a

Aug. 25, 1881

road from the Pennsylvania line to Cleveland: the small stuff to be cut out 25 feet wide, and the heavy timber to be girdled 33 feet wide and sufficient bridges to be thrown over the streams as are not fordable.

This road was cut out and timber girdled according to the recommendations of the committee, and is known at this day as the "Girdled Road." Euclid street was the first road laid out and cut out on the Western reserve.

Gen. Simon Perkins was born in Norwich, Ct., Sept. 17, 1771. He was employed in surveying wild land in the state of New York as early as 1795. The trustees of the Erie Land Co. employed him in 1798 to survey their lands on the Western Reserve and constituted him their agent to sell and convey them. He coasted up the south shore of Lake Erie, disembarked at the mouth of the Grand River in July, and established his camp in Concord, and is known today as Perkins' Camp. p. 1 Pioneer Sketches

L. M. Parsons settled in LeRoy in 1817. He could not be at the old folks' picnic at Perkins' Camp so he writes to share some stories. As a post script. he relates a story about the history of Montville. Colonel Dayton settled there about 60 yrs. ago, built a log house and dug the clay to fill for the hearth beneath the floor. For a year or two the family enjoyed good health and then one of his six boys died suddenly. The day of his funeral, another of the boys took sick and soon died. Then another sickened and died. When the fourth was taken sick, Dr. Johnson, who was in attendance on them, declared there must be some local cause, for his medicine did no good. In searching for the cause, he pulled up the floor and found the hole that was dug to fill up for the hearth was half full of water with green scum.

Sept. 8, 1881

There, said the doctor is what killed your children. The hole was filled with ashes and the sick boy soon got well.

Cleveland

Clevelanders have long prided themselves of the healthfulness of their city. But now, the sad fact must be confessed that the death rate of Cleveland for the past 6 or 8 months has been alarmingly high, higher perhaps than that of any other city in the country. The prevailing diseases have been typhus malarial fever of a peculiarly malignant form and frequently called typhoid by the attending physician, and diphtheria. As these troubles are believed to have their origin in germs taken into the body through the stomach or the lungs, the cause has been by some attributed to the rotting wooden pavements; others have with a better show of reason, charged the wells that still furnish drinking water to a majority of the population with the mischief, and it is certain that the water from them must be inexpressibly filthy. The remedy for this consists in the extension of the water into all the streets, and then filling up the wells.

Re: The article in the *Telegraph* stating that the colored citizens of Painesville held a meeting at Mrs. Johnson's and took a vote in favor of calling the Rev. Mr. J. W. VanZant to this place to labor with us in building a church is false. There seems to be something wrong about Rev. VanZant as we cannot understand him. We don't know anything about him and don't want to know anything more. The name of our house of worship is the Union Chapel, of Painesville. The trustees are Edward B. Taylor at the Seminary James Perkins and George Beathel, of Painesville.
