p. 4 The diary of Wilkes Booth taken from his body after his capture, is now in the hands of the proper investigating committee, having been handed over to it by the authorities. For some reason, its contents were not used on trial. It shows that he was an agent for the Confederate Government, and received money for it, and that at one time at least the plan was to kidnap Mr. Lincoln. It is believed to implicate only Booth and Harrold in the assassination. The entry made on Friday, April 21st, one week after the murder, shows that it must have been written in a perfect agony of mind. It describes his position with a broken leg in the midst of a swamp, alone an outcast, an assassin, weighed down by his guilt and a feeling that God would refuse forgiveness. It is altogether such a cry of human agony as seldom finds expression in words.

Mr. Calvin Wells, father of N. Wells Esq., of Mentor, who will be 90 years old in a few days, spent spring and summer, 1865, with his son—and during April, May, and June felled two dry oaks, one 4’ 7” and the 4’3” in diameter by actual measurement and chopped them into stove wood—making 25 cords of wood. He cut 40 more cords besides the two trees. He walked each day ¾ mile to his work. p. 2 The Indian War

Omaha, Aug. 7 – I have just arrived from the West. The Indians are out in strong force and have begun the war in earnest. They have put ties on the tracks and ambushed a freight train and killed seven men and burned the train. It is reported that the savages who burned the train were a portion of Spotted Tail’s band. Gen. Casement writes that his men and material are yet unharmed, but his brother, Edward, and the force under him, are at the extreme end of the road and in rather a “scary situation” should they be attacked. The railroad men are numerous and well-armed with plenty of ammunition.

In Perry District No. 9, some boys were amusing themselves during recess shooting with a pistol at a keg placed in a tree. The pistol was accidentally discharged shooting a boy belonging to Jesse Thompson, age 12 yrs., through the right lung. We have not at this writing been able to learn the result. When will parents learn not to let their boys play with firearms?
