work to drive the lock out of the door through into the safe. The iron till inside the safe was torn from its fastenings and carried away—this contained about $500 cash and notes to the value of $6,000 or $7,000.

During Sunday afternoon, Mr. T. C. St. John found the notes and papers of the firm near where a cow was fastened on the W. C. Andrew’s lot. Of the money taken $75 belong to Stillman McMillan, $40 to David Woodford, $11 to the Orchestra, $60 to R. Kennedy individually, and $310 - $315 to R. Kennedy & Sons. On Sunday afternoon the body of a man was discovered on the beach of the lake, near to the mouth of what is generally known as “Burnt House Brook” on the farm of Mr. Geo. The deceased was about 30 years old, 5’2 ½” tall, grey eyes, light brown hair, teeth good and all perfect, no papers which could lead to his identity were found on his person, but he is supposed to be a German laborer. There were knife wounds on the neck which surely would have caused death, but whether this was suicide or murder is purely a matter of conjecture. The remains were taken in charge by Mr. Chas Pelton, one of the Township Trustees and were placed in the vault and in due time will be properly interred. The verdict of the coroner was death by suicide.

From the Painesville Herald of Monday last:
The Painesville Express robbery at Painesville was a mystery three years ago. Circumstances lately have transpired which unravel the mystery and led to the arrest and detection of the guilty party. The American Express Co., of Painesville, was robbed July 1, 1878. Martin Noonan was arrested last night, and this morning, his brother Daniel Noonan Jr. There was found rolled up in a pillow case and placed inside a straw bed used by Martin Noonan and his wife, $6,080 in currency and certificates of deposit, etc.

Martin has built a house at Fairport and his brother, Daniel, built a house on Prospect St. in Painesville. Daniel is a tinsmith by trade, works for E. E. Gould, and has borne the reputation of being steady and industrious man. Martin is a teamster and has been a hard working man and at present employed in grading the new railroad. The arrests were made by H. M. Mosher; assisted by H. S. Julier, of the Express Co. in Cleveland; Hon. J. B. Burrows; ex-sheriff C. T. Morley; F. M. Barker; L. P. Huntoon; J. C. McDonald; Geo. Wilhelm; and L. F. Blair. The theory is now that the satchel fell off the Express wagon and was picked up by Noonan. The discovery of the perpetrators of the robbery and their subsequent arrest was due to O. P. Quiggle, of Hamden. He had a mortgage on a farm belonging to a neighbor, Terrance Prior, and the latter had made arrangements with Martin Noonan for the loan of some money to pay the debt last week. The parties met in Chardon and Mr. Quiggle in counting the money discovered that it smelt musty; as if it had been hidden away for some time and the idea occurred to him that it might be part of the $21,000 stolen 3 years ago. He at once came to Painesville and held a consultation with Express Agent Burham, who conferred with the company officers in Cleveland, and an investigation was instigated resulting in the arrests.

Prosecuting Attorney Clark on Tuesday said in his opinion the entire innocence of Titus Dickson and Searles will be fully established.

President Garfield is very slowly gaining strength.

Blissfield, Michigan
Despite its name, Blissfield is not a pretty town. The Raisin River cuts the town in two creating rivalry and jealousy between the two sides. The Raisin River got its name from an abundance of wild grapes that grew on its banks. It is deeper than the Chagrin in Willoughby and is simply a "nasty" muddy stream moving along with a sluggish current. But the willow fringed, grape-vine festooned banks are very picturesque.
Blissfield is noted for its multitude of pretty girls. One evening, we drove over to Riga, a little German town just in the edge of the great

Cottonwood swamps. In the fall of 1871, this swamp was a sea of fire, and the brave German peasants fought for their homes like heroes. They saved their ample homes and farms but for miles around the great cottonwoods stretch gaunt bare arms above the dense undergrowth of shrubs and saplings—as a mute memorial to the fiery warfare. It is a spectral ghostly sight on a dark night, and a belated traveler hurries by with a troop of spooks, snakes, and ague-fiends after him.

Vacationing in Wenham’s Grove on Lake Erie. There are six cottages in the grove and one large wall tent, all occupied by businessmen and their families from the city. The gentlemen drive to their business every morning and return in the afternoon for the night. In the southern part of the grove is a villa cottage occupied by Mr. G. T. Brooks and his family, who have charge of the whole place, during the entire year. They have a number of summer boarders. The water is a sapphire blue color.

At this point the rear wheels rose out of the rut, the off one passing over both his legs just below the knees. Painesville

The family of Mr. Geo. R. Patten, the gentlemanly manager of the P. & Y. R. R., arrived here from the east a little over a week ago and took up their abode in the house of A. H. Garfield on St. Clair St.

On Sunday afternoon a rope walker undertook the task of walking across the Grand River at the new railroad bridge being built at the south end of town, the rope being stretched from the top of the derricks. He performed admirably in front of a large crowd, and then was arrested by the Marshal for giving a public exhibition on the Sabbath day. He was bailed out by one of the bosses on the new bridge.

One of the grocery clerks was considerably upset and noisy on Main St. expressing his view on the rope walker’s arrest. The Marshal put his hand on his shoulder and requested him not to be so noisy. The infuriated clerk turned on the Marshal and dealt him a heavy blow on the head with his cane. The officer then took hold of him to arrest him and a tussle ensured; the grocery man getting the “grape vine lock” on the Marshal’s leg, and was about to “down” him, when Mr. A. D. Crofoot was called to his assistance—the downfall of the law was prevented, and the arrest made. The rope walker’s name is Spears, and he was employed on the bridge to handle the ropes.

West Mentor

There was a Lawn Fete at Mr. H. Johnson’s last evening. Five hundred people were there but the grounds were ample. The Flower Booth was in charge of Misses Florence Rose, Mary Bradley, Lizzie Loomis, and Genie Justus. Emily Corning, Mary Aldrich, Lucy Pratt, and Ada Delong sold peanuts to small boys until they gave out—the peanuts—not the boys. The booth was handsomely decorated with evergreens, strings of snowy corn, flags, and lovely Chinese umbrellas.

Mrs. Justus, Mrs. Bradley, Mrs. Barnes, Mrs. Cook, Mrs. Wells, and the other ladies dressed in “ye olden time” costume, attended to the New England Supper table. The ice cream and cake table—one immense circular table, in the center of which stood the ladies in charge; Mrs. Hendryx, Mrs. Green, Mrs. Andrew from the Plains, and Mrs. Radcliffe. They ran out of lemonade and ice cream.

Misses Lizzie Wilson, Lillie Hodge, and Jenny Hodge were dressed in fancy costume and sold button hole bouquets. The success of the whole entertainment was especially served through the energy and tact of Mr. and Mrs. W. H. Johnson and Capt. Eleazer Burridge, who seemed to be everywhere at the same moment. The evening was just perfect—not too cold and not too warm—and not more dust than one could swallow. Moonlight made to order, and everything.

The family of Mr. Pardee, of Cleveland, now occupy the cottage on the hill.

The family of Rev. Geo. R. Merrill, of Painesville, consisting of wife and three children are boarding with Mrs. D. H. Woodard; also, a Mr. McNeal, of the City.

Mr. Jenkins and wife are now living with their daughter, Mrs. K. Turk.

Our Chautauqua delegation this season consists of Mr. Geo. Damon and Miss Kate Clapp. Grandma Whiting attended the birthday anniversary at Mr. T. Morley’s. She has been an invalid for many months, and is yet unable to walk a step; but her presence added very much to the enjoyment of the occasion. Mrs. Jared Randall who has been quite ill is very much better. Mrs. Cyrus Martindale is enjoying a visit from grandchildren from Hillsdale, Michigan.

Letter from Michigan (from Alpena Mich., Aug. 7, 1881)
Perhaps no part of the country is any happier as a result of the business boom than Northern Michigan. The lumber interests of the state were never more prosperous. Michigan pine lumber is today finding its way to every part of the Union between the Rocky Mountains and Cape Cod. An inspection of the state directory shows the names of 1300 firms engaged in the manufacture of pine lumber. The large mill of Sage & Coat, Bay City, having turned out 300,000 feet in one day. Michigan has been suffering severely from dry weather. Within the past week, forest fires have been raging extensively along the lines of the railroads. Between East Saginaw and Midland, we passed for miles through smoke so dense it was impossible to see for more than the width of the street. At Bay City, Thursday, the dense pall of smoke completely obscured the sun. At evening the gaslights were all of a peculiar whiteness like the electric light, only less brilliant. The money value of the timber destroyed will be considerable. The big stump machines have made the stumps fly where the pine forests have been cut off. These stump machines do not hesitate to tackle the biggest stump and deepest rooted stump in the state, and the stump always gets the worst of the encounter. Fifteen years ago, northern Michigan imported almost everything people or horses needed to eat. Now they send away thousands of bushels of wheat besides supplying home demand. Alpena is an important lumbering point at the head of Thunder Bay. It claims a population of 6,000 or more, and has 10 or a dozen large mills. It, also, possesses a mineral spring said to be efficacious in the restoration of health to disordered bodies. It certainly smells and tastes badly enough to possess medicinal properties. There is no railroad here yet but daily steamers connect the city with Sheboygan and Mackinaw on the North and Bay City, Detroit, Sandusky, Cleveland, &c. on the south. It is generally free from excessive hot weather, and is quite a summer resort.

Loss by Fire
The large barn of Mr. O. H. Sharpe, at the end of
the lane leading from his residence out into the
lots, burned last Friday. It had stored in it 20-25
tons of hay. A portion of the barn was used by
Mr. Ruder as a slaughter house and contained 6
hogs, 3 lambs, and one calf. The fire
communicated to a stack of wheat, joint
property, of Mr. Sharpe and Mr. Hitt. The origin
of the fire is a mystery and no light had been
used in or about the building. The charge of
incendiaries is freely made.

Mrs. Richard Yaxley died Sunday evening the 14th instant at 8 o’clock. She was 39 years old. Though she had been sick nearly 3 weeks, her attending physician did not consider her in immediate danger. But death came suddenly and claimed her as his own, the immediate cause being the clotting of the heart’s blood through a disordered state of the liver. Mrs. Yaxley was born Aug. 26, 1842. On Mar. 10, 1862, she married to her now bereaved husband—who with five children are left to mourn their loss. The youngest being an infant of three weeks old. Eight years ago the family moved to this township. Elder Green, of Willoughby, officiated at the funeral which took place Tuesday, the remains being interred on Waite Hill. It is related as a strange coincidence that her death occurred at the same date and hour as upon the arrival of her family to her late home 8 years ago—she making mention of the fact but a few hours previous to her death. Just as the funeral services were about completed a daughter of Mrs. Yaxley’s, Emma, became prostrated through nervous excitement and grief, her whole body becoming perfectly rigid. Dr. Storm was sent for, and at this writing the patient is doing well.

Kirtland
A somewhat singular incident took place at Mr. Edward Lee’s, a resident of this township, of which the following is a true statement: On Sunday evening, the 18th, as Mr. lee—who has been ill for a long time—was lying on his bed, just awakened from a drowse, he saw a man standing a few feet from the foot of his bed. He called to him but received no reply. He then called to his wife who had retired to rest in the room adjoining but upon turning to look for the man, he saw nothing. He or whatever the visitant was had vanished. There was a light in the room at the time and he appeared a man about 30 years of age. Mr. Lee says he saw him as plainly as he ever saw a man in his life. Mrs. Lee had heard her husband call but could neither move or answer. Mrs. Gildersleeve says she heard a faint noise about the time of his vanishing. The doors were all fastened except the front one. Mr. Lee is a man of considerable wealth, and this may explain the purpose of this nocturnal visit.

The City authorities of Cleveland have tendered to Mrs. Garfield her choice of lots in Lake View Cemetery and that the people of Cuyahoga Co. will erect a noble monument to their well-beloved President. It was first thought to bury him on the farm; but after more mature thought and reflection upon the neglect and oblivion that had fallen upon the graves of Webster, Adams, Jefferson and others, it was thought best to bury the President in the Cleveland cemetery, especially as it is chartered by the State and can never be allowed to fall into neglect; and so Mrs. Garfield has telegraphed her acceptance of the burial site.

Wickliffe
It is reported that Mr. Arnold is doing quite well at the seaside. He is thinking of returning in a little time.

On Monday afternoon, Mr. Geo. H. Merrill was sowing wheat with a drill near home when he was suddenly attacked with a most severe fit of weakness and dizziness. He managed to get on the grass by a fence only a few feet distant, with his team standing by; and there he lay in that helpless condition when his wife noticed the team being there for so long and not seeing him feared something was wrong. She sent her little girl down to see where he was, and the child came running back saying her father was down by the fence and could not get up. Help was summoned and he was lifted in a wagon and brought to his home. He is still quite sick and at present writing is not strong enough to sit up.

Reunion of the Norton Family
The 8th annual reunion of the Norton family was held on the 14th instant at the residence of Nelson Norton in Perry, in this county. More than 60 members of the family were present, their ages ranging from a child of a few months to age 73, the age of “Uncle Horace” the last surviving member of this once numerous family of brothers and sisters. “Uncle Horace” came from Twinsburg; also, his daughter Mrs. Fenshaw and grandchild. Our friend H. Herrick, wife and two sisters—Mrs. Quirk and Mrs. Philbrick came from Chester. Another sister the wife of J. E. Stephenson came from Chardon. These 4 were the daughters of Lebbeus Norton, elder brother of Horace. Mr. Pettibone and wife came from Solon; Eber Norton and family from Mentor; and Mr. Baker and wife from LeRoy. Among the 100 or more descendants of Aaron Norton, their progenitor, not one was ever known to be intoxicated. They were all Whigs and then Republicans. President Garfield, when a young man, worked by the month for Uncle Horace. I have heard Horace mention it with pride. When President Garfield would be told that “Uncle Horace” was in town to see his nephew, Eber, he would send word to Horace to not fail to call and see him. The Norton family, like many others, knows nothing of their remote ancestors. Their knowledge extends no further back than the grandfather of Uncle Horace. He had among others a son, named Aaron, from which this family of Nortons descends. He was a soldier in the Revolutionary War. His powder horn carried in the War is with Uncle Horace today. His sons fought in the War of 1812, and his grandsons in the Civil War.

Extracts from a letter lately received by Mr. Geo. A. Allen from his brother-in-law, Mr. T. D. Barnes, from Springleaf, Mich., which gives a partial description of the loss by fire in his immediate neighborhood. They are all alive and their buildings are saved—one of the very few in this whole section. Allen and family barely escaped being burned to death. Pioneer Sketch of Ebenezer Smith
One of the pioneers of this township, Ebenezer Smith, or as he was familiarly called “Eb” Smith, was born in New Jersey in 1771. He left his native state for the purpose of settling in Chillicothe in this state; but falling in company with Elisha Graham, who was committed to settle on the farm at the mouth of the Chagrin River, he was finally persuaded to change his purpose and located there, also. Smith and Graham with their teams crossed the Allegheny Mountains together. The family of the former consisted of himself, wife and 4 children, all brought in one two-horse team. As near as can be ascertained, Smith arrived in Chagrin (now Willoughby) in the spring of 1801. From Burton they were obliged to cut their road through the forest. He purchased 105 acres of land of David Abbott (agent of Olmstead) on the Chagrin River and contiguous to the farm of Elisha Graham. Smith’s log house was the first one on the lake shore in that vicinity (the farm is now owned by Dr. Weber). Smith’s trade was that of a blacksmith. He made the irons for the first vessel built on the river; and later, when Abbott built his mill where the Willoughby Mill now stands, he did the iron work for that, also. When the Mills were built, the millstones were made out of the boulders found scattered here and there and splitting them into halves preparatory to dressing them for grinding purposes was no small part of the work. Smith’s services were almost indispensable in making the irons to divide them. In 1812, during the war, Smith resided in Poland, Trumbull Co. He had moved because it was deemed safer for his family and promised him better employment in his trade. He was not a hunter as the term was used in those times, but a trapper, making his own traps and catching raccoon, mink, muskrat, and otter. When he lived in New Jersey there is one known incident to relate: He had sold a house and lot for $400 and was paid in paper currency which depreciated in his hand and was nearly an entire loss to him. Afterwards, he would never keep a bank bill overnight, and when he lived in Willoughby, if obliged to take any paper money, he would hand it over to a friend in the mercantile trade, with the understanding at a convenient day he was to have the specie for it. He was an avid reader; in the early part of his life in Willoughby; he is said to have practiced law, and when opportunity presented would plead the cause of the poor man at no charge. His farm produced a surplus of grain. He always wanted $1 per bushel for his wheat; 50 cents for corn and 25 cents for potatoes and would never take more than that. When prices were high, he did not sell out to any man of property, but would parcel it out to poor men so they could take advantage of his fixed prices. But notwithstanding this excellent characteristic, his life was sullied with the most strong and bitter prejudices, and when aroused he had a most violent and unrelenting temper. He died in 1850; 79 years of age.

Court case: Jerome Houghton (formerly of Mentor) plaintiff, and Benj. F. Downing, adm., defendant. Jerome Houghton, a grandson of Jotham Houghton lived and was brought up in the family of his grandfather until the Pike’s Peak excitement of 1856. He was the 15 or 16 and decided to go with several others to Pike’s Peak. Jotham, his grandfather, was quite lame and needed him on the farm, and did not want Jerome to go, so told him if he would stay and work for him on the farm until he was of age, would will him $1,000. He remained and worked the farm until of age. His grandfather executed a will leaving $1,000 to Jerome at his death but subsequently destroyed the will. He stated it was his intent before his death to make another will and to will $1,000 to Jerome, instructing him to come to his house with a lawyer for the purpose of executing said will. Before his was accomplished, he was taken sick and died without leaving a will. His administrator, B. F. Downing, after examining the claim of Jerome Houghton, refused to allow it.
