NOTES

- Addenda - This term is used to indicate additions, corrections, or differing listings of cemeteries already in Series One or Two.
- ff - This is used after a page number to indicate that following pages may need to be consulted.
- REMEMBER - The stone itself is the primary source. These listings are secondary sources. There are many chances of errors in copying or in reading stones, handwriting, poor copies, etc. Typing errors may have crept in.
- DATES - Check date of list if it is given. Many of these lists were compiled a long time ago. Probably these cemeteries need to be seen again.
