

1933

Dear Mrs Schreiner,

We were glad to get your letter. We all wish we could attend, but being so far away it seems impossible. We all have children in school and Dad is unable to drive such a distance alone. I have many memories of District 39. Too many to try to put on paper. The two things that I remember most are the yearly picnics at Meyer's Bluff and the Christmas programs. I am the only one of the Barnes family to complete all eight grades there. Here are three pictures that were taken while I attended there. I don't remember what years they were taken in.

My folks have retired but still live on the farm.

I wish I would if had some better pictures to send. I don't have any recent pictures of my folks either.

When the Anniversary booklet is ready I wish you would let me know. I would like very much to have one. I believe Mary would like one also.

Hope you can read all of this through my mistakes and all.
