

1948

and Fred Meyer.

I'm sure by this time you have a new heating stove. That winter on two different week-ends the old one would smoke and everything would be covered with that greasy black smoke. The mothers helped me clean the walls, blinds etc.

I have been looking over my old snapshots and decided to send three. I have lost track of just where all the pupils are I taught. I'm looking forward to hearing about each of them on Oct. 6<sup>th</sup>. We are planning on attending your celebration.

I live on a farm with my husband Lowell and five children. We live two miles west and  $\frac{1}{2}$  south of Wausa, Neb. Our children are:

Deborah - 13 years old,  
Maxine - 11 years old,  
Bruce - 4 years old,  
Meril - 3 years old and baby  
Jeff - almost 3 months old.

We wish you every success on your 75<sup>th</sup> Anniversary.

Sincerely,

Mrs. Lowell Friedrich

(Twilla Sellen)
