

1904

Mrs. Chris Manger, nee Martha Larsen, first attended Dist. 39 in 1904.

21-

falks of to-day.

There was a creek running near by where the teachers and pupils spent some of our noon hours. We searched for and found both Arrow heads and snail shells. This same creek proved a popular spot for ice skating in the winter.

By to-days standards our fun of those days would perhaps seem dull and unexciting. But as the years roll by fondest memories are sometimes those that at the time seem almost commonplace.

I am looking forward to attending the celebration Sun and looking forward to meeting old friends.

Respect fully
Mrs Chris A Manger
