From California - O. Warner, Esq., of LeRoy, has furnished us a letter from his son in California, dated Feb. 7 from which we make the following extracts:

When I arrived in this country last August, I was taken with the scurvy, which lasted about three weeks. As soon as I was able, I left the mines and came to Benicia, where I had an attack of the fever and ague. I then came into the Red Woods to work and spend the winter in getting out limber and shingles. Owing to the immense amount of lumber that has been shipped in here, it will hardly pay for hauling to market a distance of 16 miles. Take it all in all, I am just about square with the world, a curious state of affairs in this country. You can buy pork and transport it to the country, a distance of 16,000 miles for the same money that it can be carried in wagons a distance of 15 miles, and other things in proportion. The whole country along the coast is covered with cattle. A man to make money in this country, wants a fortune to commence with. There are a very few who dig out a snug little fortune. A large majority think they have missed it in coming here. I say it for one.

p. 3 col. 2 A Card – Lewis H. Kelly, M. D., respectfully informs the public that he has moved his residence from central New York to this place for the purpose of practicing Physic and Surgery. p. 2 col. 5 Historical – From the *Ashtabula Sentinel*

Nov. 6, 1850

The *Conneaut Reporter* is in error when it refers to Capt. John D. Reed's Company of 1812 as volunteer—they were drafted men. The territory now composing Ashtabula (except the southern tier of towns, at that time composed one regiment. This regiment was commanded by Colonel King, brother of the late Judge King. The company served part of the time at Fort Meigs, under General Harrison; and were at that place at the time of the bloody defeat of Winchester, at the river Raisin. There was, however, a company of volunteers raised from the territory of Ashtabula and Geauga. It was commanded by General Joel Paine, of Painesville. There are many yet of its members living among us: Hon. Mathew Hubbard, now of Ashtabula
Hon Q. F. Atkins, of Cleveland
Mayor Levi Gaylord, who died some year since Samuel Hendry, Esq., now of Ashtabula
It was the only company of volunteers from two counties. We have been unable to ascertain whether their time of service was of sufficient duration to give them bounty lands.

Wanting to partition the homestead and lands of Samuel Brooks, dec., of Mentor.

p. 3 col. 2 We have frequently witnessed the perplexity of strangers on account of the want of facilities for going directly to the south of Painesville. If a person wants to go to Warren, for instance, he or she must first go to Cleveland or Ashtabula for the purpose of getting a conveyance. Can we not have a tri-weekly, if not daily, stage to Warren?

Sold Out – Judge Hubbard, well known in this county as a large land proprietor, some time ago left his homestead in Madison for Cleveland, where he now resides.

Huge Animals – Our neighbor, Stickney, last week killed a hog, 10 ½ months old, which weighed 401 pounds.

Our friend, Geo, Curtiss, has a Durham Bull supposed to weigh 1900 lbs. The animal is now on the farm of Col. Crocker, Madison.

Fatality – A disease which the physicians call the Erysipelas Fever has been raging for some weeks in Thompson. May deaths have occurred; but the disease seems to yield to proper medical treatment. We have heard of one or two cases in this neighborhood.

Acquitted - Mr. Webster, of Madison, whose case we notice last week, was discharged by the Justice. His house is again open.

p. 3 col. 3 New Machine Shop – Mr. Maltby has a new establishment, in Hawley's building, on State Steet, for making steam engines, turning lathes, mill gearing, & c.

Whereas, my wife, Charlotte, has left my bed and board without just cause or provocation, this is to forbid all persons harboring or trusting her on my account, as I will pay no debts of her contracting after this date. Amos Button, Painesville

A Strike! – We understand that all the Irish laborers, numbering from 150 – 200, who were engaged on the Rail Road track through Willoughby, last week struck for higher wages. They have been getting six shillings; they demand seven. The contractors resist and have sent to distance parts for men who will work at the minimum rates. Many of the strikers, with their wives, have been loitering through town this week.

What is the reason? J. H. Howe, Esq., has been appointed Post Master at Unionville, in the place of Mr. Tinker, removed.

Asa W. Dewey and Julia, his wife, Henry C. Wait and Sophia Wait will take notice that on March 4, 1851 a petition was filed against them in Lake Co. Common Pleas Court by Solomon B. Shoemaker and Speedy M. Shoemaker, wife of the said Solomon B., for partition of land in Willoughby Township.

Administrator's Sale – Cassandra Wass, adm. of Samuel Wass, will be selling land in Painesville.

Larceny - The smoke house of R. R. Storm, Willoughby was broken open on the night of the

27th ult., by some person, who took and carried away several hams. The stolen property was found with a search warrant in the house of W. Jump and Geo. Norton. He was sent to jail.

Something New – Grosvenor has been expressing oil from pumpkin seeds, by way of an experiment. The job was done for a physician, who may discover great medical virtues in this oil.

Another Church – The Disciples have purchased the "Sand Lot" on Washington street, from Geo. Reed, and are preparing for the erection of a church.

Gone to Work – The Irishmen, who struck for higher wages, on the "Willoughby job" of the rail road, have gone to work at the old rate, six shillings.

p. 3 col. 3 Mrs. Scofield has moved her shop to the Brick Buildings opposite S. Marshall & Co.'s Hardware store.

Notice – A petition will be presented to the Commissioners of Lake Co. at their next meeting to alter the North Ridge Rd. from the east end of the bridge across the Grand River to the west line of Andrew Crofoot's lot, laying said road the south side of and parallel with the Cleveland, Painesville and Ashtabula Rail Road. The Mormons – The difficulties between the United States' officers and the Mormon Priests have led to some disclosure respecting Mormon morals. The truth below is certified to by the United States' officers:

The plurality wife system is in full vogue here. Governor Young is said to have as many as 90 wives. He drove along the streets a few days ago with 15 of them in a long carriage, fourteen of them having each an infant at her bosom. It is said that Heber C. Kimball, one of the Tribune Council, and the second person in the trinity, has almost an equal number, among them a mother and her two daughters. Each man can have as many wives as he can maintain, that is, after the women have been picked and culled by the head men.

p. 2 col. 5 Riot in Cleveland – From the *Cleveland Herald* of the 16th announcing the fact that a

mob occurred at the Homoeopathic college there.

Particulars from the *True Democrat*

At midnight, yesterday, a band of irresponsible rowdies assembled in front of the Homeopathic Medical College on Ontario Street, threatening Professors and the building with violence. About 50 loafers of the meanest quality took possession of the second floor of the college. Part of the balance were intoxicated and the others angry at they knew not what. The claim was, that the body of a female found in the privy of the college, was a daughter of Mr. Johnson, of Ohio City, which had been brought there by the students for dissection, and that her father had recognized it. This we know nothing about; the fact in the case will be judicially investigated today. The mob made efforts to get into the third story of the building, but only succeeded in breaking windows and a stair railing. The mob dispersed at 5, but rallied again at 6, broke all the windows and completely emptied the building of its contents. On Tuesday, a portion of the mob gathered threatening to attack the private residence of the Professors and also the Allopathic College. The officers attempted to arrest several of them but were overpowered. The military was then called out and were on duty all day. About 30 arrests were made.

The Indians of the Plains – The *St. Louis Republican* has news from Fort Laramie to Jan. 16th. The treaty made at the Fort last fall has produced good results. The friendships brought about between the different tribes, party to the treaties, have been strengthened by marriages &c. The Pawnees did not attend the treaty and they are now almost the only tribe on which the Sioux, Cheyenne, and Arapaho make war. A number of Pawnee have been killed and fears are that unless protected in some way, between their enemies and starvation, the tribe must soon become extinct.

p. 2 col. 4 Extract from a letter from Coon Hollow, El Dorado Co., California, Dec. 20, 1852 from Dr. J. J. Hewitt, formerly of this county to Mr. T. J. Dille:

I am in California, a land filled with people from all parts of the world in search of the precious metal. Comparatively few are fortunate enough after 2 or 3 yrs. here to get home with as much as they left home with. But some make their piles very soon and secure a fortune for life. A man with a family, a good farm, or in good business at home, had better stay there. I arrived here Aug. 28th, after a long, tedious journey of nearly 4 months across the plains. Traveling 2,000 miles with an ox team at the rate of about 20 miles per day, under a scorching sun, with blistered feet, parched mouth, sore lips, and monstrosly nibbled with gnats and mosquitos, a dry Akali dust about 4" deep in the road, wind blowing a perfect hurricane, along with cholera, dysentery, mountain fevers, smallpox and other diseases, forms a part of the luxuries of the California emigrant across the plains. Also, the whoops and warlike appearance of the Indians by day, the constant howling of the wolves and screech owls by night; swimming rivers and climbing mountains. There are large trains of wagons for miles in length, and droves of cattle and sheep trudging along.

Beat two eggs very lightly, mix alternately with them one pint of sour milk or butter milk, and one pint of fine Indian meal, melting one table spoonful of butter, and add to the mixture, dissolve one table spoonful of soda, and saleratus, &c., in a small portion of the milk, and add to the mixture the last things, beat in a pan, and bake very hard in a quick oven.

Our Hotels and Restaurants should try this, if they want to serve a delicious article for breakfast.

A quantity of clothes belonging to a widow lady of Fairport were stolen from her clothes line last Tuesday night. The thief was caught and the "Fairport Laws" kept him in chains until Wednesday morning when he had to run forward of a good cow hide in the hands of one who knows how to use it. He was chased in this manner for nearly half a mile, getting a "clip" at every step. We bet that chap won't steal in Fairport again for at least half a century.

The thermometer in Painesville stood at 92 degrees on Sunday night; it was 87 degrees in Cleveland.

Francisco. I have lived 14 yrs. in N. Y., 20 yrs. in Lake and Ashtabula Co.'s., in Ohio, 8 yrs. in Illinois, 1 year in Iowa and 5 yrs. in Holt Co., Missouri. Wheat, barley and oats do well here and are raised with less labor than in any of the other states I have lived. December is as pleasant at May.

An Order of Attachment for the sum of \$12.56 was issued by Lewis Miller, Esq., a Justice of the Peace of Painesville, against the property and effects of Jane Crane and Mary Crane, non-residents of this county. Moses Morrell

p. 1 col. 4 Yankees and Foreigners – from a recent lecture on Street Life in Europe, by Wendall Phillips:

Yankees invent labor saving machinery while in Europe they do as their fathers did, without seeking to improve. In Italy, you will see the farmer breaking up his land with 2 cows and the root of a tree for a plough.

In Rome, Vienna, or Dresden, if you hire a man to saw your wood, he does not bring a saw horse. He never had one, nor his father before him. But he places one end of the saw on the ground and the other against his breast, and taking the wood in his hands, he rubs it against the saw. And he will be all day doing 2 hrs. work.

In all of Florence, a city filled with the triumphs of art, there is not a single auger. If a carpenter would bore a hole, he does it with a red-hot poker.

The Pope does not allow the steamboats to come up to his wharves, but anchors them a mile off, so that his ragged boatman may make a few pennies by rowing passengers ashore. Thus, he makes labor that the poor might live.

In Rome, charcoal is principally used for fuel and you will see a string of 20 mules bringing little sacks of it upon their backs, when one mule would draw it all in a car.

If a Yankee refuses to do a job for 50 cents, he will probably do it for a dollar and will certainly do it for five. But in Naples, one who has earned two cents and eaten them, will work no more that day if you offer him ever so large a sum. He has earned enough for the day and wants no more. Everyone moves slowly and there is no eagerness for making money.

This rich soil appears to be universal. Very little timber except along the streams. However, there is an abundance of stone for building and fencing purposes. Sam. Plumb, and Wm. Bonner

No. 2 Kansas Territory, Oct. 10

We do not hesitate to say that this whole territory, for richness of soil and beauty of surface, surpasses anything we have ever seen. This country is extensively supplied with coal which will compensate to a great extent for the lack of timber.

The water in the streams is low as it is in Ohio due to the drouth. The oldest Indians have no recollection of ever having seen so dry a summer. We think water can be found anywhere by digging. Samuel Plumb, Wm. Bonar

No. 3 Kansas Territory, Oct. 14

We are at Lawrence City, the headquarters of the Boston company. This is 45 miles from the mouth of the Kansas River. Samuel Plumb, Wm. Bonar

p. 3 col. 1 Fire – Tuesday night the house of Mr. James Call in Mentor burned to the ground. Mr. & Mrs. Call were gone from the house and six children were home who barely escaped. Two little ones froze their feet badly before reaching the nearest neighbor a mile away.

Mr. J. Storrs, of this town, who keeps a daily record of the weather, has kindly volunteered to furnish us with a monthly abstract. This month has been so dry, that with all the snow and rain, we have had but 3 inches of water in January.

Mr. & Mrs. Jacox, an elderly couple residing in Avon, Lorain Co., went to bed a few nights ago with burning charcoal in their sleeping room and suffocated from its fumes during the night. They were aged about 60 yrs. *Cleveland Herald*

Gen. Murray drove through our streets yesterday morning, a drove of about 50 head of Fat Cattle. A yoke of Durhams led that were very choice.

I can say the report about Mrs. Henry is false, entirely false as she was at my house all the time. I have known her from childhood. I think that is a dreadful thing to slander a virtuous woman's name in this way. It shows a very low mind indeed. To this I testify: Martha Allen, Edward Alden, Harriet Lively, Charles Lively

A gentleman, who has resided in this county about 40 yrs., tells us, that he has never known but one winter when there was uninterrupted sleighing for 6 weeks. That was some 20 yrs. ago. If a thaw does not intervene, next Saturday night will complete 6 weeks of excellent sleighing. The snow is now for 12 – 18 inches and the weather "as cold as Greenland."

p. 3 col. 1 Fatal Accident – Mr. Andrew Andrews, of Mentor, took passage on the 9 ½ train from Cleveland last Friday evening for this village. As the train passed the Plank Road which is a point half a mile nearer his home than our Depot, he jumped from the cars, when his foot slipped, bringing his right leg across the rail which was crushed by the wheels below the knee. He was on the track about 2 hrs. crying for help before assistance came. He was taken home and his leg amputated but died a few hours afterwards. He leaves a wife and children.

Mar. 14, 1855

p. 2 col. 4 Our County Court on Thursday, Friday and Saturday was engaged upon the trial of a case without parallel in the history of crime in Ohio. It presents such an exhibition of human depravity as has never before fallen within the range of our knowledge—depravity so cruel, that in its presence, hell itself would turn pale. A little girl, fatherless, whose mother resides in the distant State of Iowa, is received into the family of one of the farmers of our county. The name of the family we will not give. The little orphan girl was 9 or 10 years and in this family was immediately subjected to such tortures by the wife as we may not tell of—too heart-rendering for humane ears, and too vile for publication.

Mar. 14, 1855

The little girl is now 12 and was brought into the courtroom to tell her story of suffering and outrage. This was a civil action for damages. The jury were absent but a short time and returned a verdict of \$3,100—supposed to have been limited to this amount by the ability of the respondents to pay. We understand a criminal suit has been commenced against the wife.

p. 3 col. 3 A letter has been put in our hands from Miss Susan Woolsey, formerly of Willoughby, now of the Mendi Mission, West Africa. An extract or two from the letter dated Good Hope, March 12:

It is now 123 weeks since I left home. Six of that spent in N. Y., five upon the ocean, one in Freetown, and one at Good Hope, which for the present is my field of labor, having commenced school yesterday with 20 little natives, and having already made some progress in the Mendi tongue. Our voyage upon the ocean was a short, rough and pleasant one. The first 2 weeks we were driven by continuous gale, 16 hours of which our brave master was obliged to "lay-by," which upon land means left to the mercy of the winds and waves. You have heard of waves running "mountain high." To give an idea, when our brig was in the trough, the wave astern could be seen over the top gallant sail, a distance of 40' from deck, which in the distance it seemed even larger than this. The bulwarks of the ship were higher than my head, and yet the waves not unfrequently broke over upon the deck and enveloped the ship in foam and spray. And yet not one feeling of fear possessed me. Our preventative, was a remark made by our Captain. One of us asked him if the thought there was danger? He replied he knew no such thing as danger upon the sea; that we had the same protector here as on the land. Glorious thought!

p. 2 col. 5 The Mormon Curse – Brigham Young, in a sermon delivered at the Tabernacle, in Great Salt Lake City, disposes of the enemies of his religion by telling them to go to hell and be damned; for you are damned already.

p. 2 col. 6 History of Mormonism at Kirtland – The Mormon Temple at Kirtland stands as a monument of the exploits of fanaticism and ignorance.

From a recent number of the *Deseret News*, we extract a portion of a sermon delivered by Elder Geo. A. Smith, formerly of Kirtland, at the Tabernacle, upon the rise and progress of Mormonism, at Kirtland.

The first revelations that were given to the church were to command them to gather and send elders to seek out a place for the gathering of the saints. For this purpose, the saints

July 25, 1855

commenced to build a Temple in Kirtland, the cost of which was not less than \$100,000.

In a few weeks, some of the apostatized, the trails were too great, the troubles were too severe.

Four hundred and sixteen elders, priests, teachers, and deacons, met in Kirtland Temple on the evening of its dedication. On the evening after the dedication of the Temple, hundreds of brethren received the ministering of angels, saw the light and personages of angels, and bore testimony of it. The Lord dared not reveal anything more; he had given us all that we could swallow; and the persecution raged around us to such an extent that we were obliged to forsake our beautiful Temple, and fell to the state of Missouri.

p. 3 col. 1 Superb Wheat – On the farm of Mr. Seth Marshall, near our village, is a field of 30 acres of very superb wheat. Twenty-one acres is winter wheat, much of it standing as high as a man's head, and as thick upon the ground as we have ever seen wheat. It was sowed on shares, by Mr. Abbey, of the County Infirmary, so that the County, for once is in luck.

p. 3 col. 2 Fine Oats – Mr. Milton Armstrong, of Perry, 2 years ago, received from N. Y. a letter with a handful of the variety of oats known as Poland oats. This gave him half a bushel of seed which he sowed upon 90 rods of land this season. The straw is stout and heavy standing 5' and 5;6" with heavy heads of plump and extra sized grain. These oats weigh 40 – 42 lbs. per bushel.

The teacher was often one of the farmers' sons who knew a little more than his elder pupils; or he was a student who was working his way through college. His wages were those of a farm laborer. He boarded "round" meaning he lived a few days at each of the houses. The grand quality of a teacher was the ability "to do" any sum in Arithmetic. To know Arithmetic was to be a learned man.

p. 1 col. 7 Preserving Fruit by Hermetical Sealing – Mentions self-sealing cans which can be put up

without the aid of a tinner. The self-sealing cans can be made in different ways. Some are sealed by screwing a cork upon a rubber compress and applying melted bees-wax; others by warming the cover and pressing it into a rim of cement, which surrounds the top of the can, others again are sealed with peculiar kind of soft solder. The method for putting up fruits and vegetables is described.

p. 3 col. 1 From Dr. Rosa's Lecture of last Friday evening. The Doctor's theme was "Painesville as it was, is and must be."

Up to 1820, and even since that period, almost the entire amount of foreign goods and productions consumed in the counties of Ashtabula, Trumbull, Mahoning, a large part of Columbiana, Portage, Geauga and a large part of Cuyahoga were landed in Fairport. The Ohio Canal found its northern terminus at Cleveland. In 1836 and 1837 Richmond and Fairport enjoyed a good trade in supplying the above-mentioned counties. But this trade was soon cut off by the construction of the Cross Cut Canal, which threw nearly the whole of it into Cleveland. [All should have a deepened interest in the speedy completion now of the Painesville and Hudson Railroad.] Nothing, but this road can save us from being a feeder to the more enterprising and prosperous places around us.

Fatal Accident – Last Wednesday afternoon, three of the workmen on the P. & H. Railroad, upon the farm of Mr. Ariel Benton, about half a mile north of this village, were digging under a bank in a deep cut, when a large mass of earth suddenly gave way completely burying two of them from sight. They were instantly killed; for upon removing the earth, they were found to be so crushed that their bones projected through their boots and clothing. The third man escaped with his life but was badly injured. The deceased were Germans.

on the river bottom near the village. The grass stood straight and not very heavy or thick. If the field had been more difficult to mow, the trial would have probably discovered differences in the mowers tried. Ten mowers were on the ground and eight different kinds: Manny's, Ketchum's, Fountains, Allen's Forbush's, Ball & Altman's, Heath's and Danford's. All the machines in ordinarily thick standing grass will do fair work.

Some women have been unhappy since the husband took another wife. He says to all women to reflect 2 weeks on if they want to stay with their husbands and round their shoulders and stay with their religion. He is setting any woman free with her children is she wants to take them.

If the first wife says she has been a wife 20 years and borne a family of children but it is a great trial for me for him to have other women; then I say it is time you give him to other women who can still bear children. If my wife had borne me all the children that she ever would bear, the celestial law would teach me to take young women that would have children. This is the reason why the doctrine of plurality of wives was

End of Papers for 1856

p. 2 col. 6 Dissolution: The partnership between Moses H. Colby and Alonzo Chubb under the firm name of Colby & Chubb has been dissolved by mutual consent. The business of spoke manufacturing will be hereafter carried on by Colby alone.

p. 3 col. 1 Our Union Schools – Comparing the Union and Graded Schools with how school used to be.

In the old system: There were 2 terms during the year, a Summer and a Winter school with long vacations, and generally a new teacher for every term. Fifty or sixty students of all ages were crowded into one room. The students were presented to their teachers with all grades of attainment, studied everything from ABC to

Euclid and scarcely two students possessed the same book.

In the graded system, students come together in accordance with their age and attainments. The frequent oral instruction needed for the smaller students is not disturbing the larger one's laboring on difficult mathematics.

In Primary School are the little ones, from 5 – 8 yrs. old.

The Secondary School takes these boys and girls thus well started and teaches them Reading, Spelling, Mental Arithmetic, Geography, etc.

Then follows the Grammar School and last the High School.

p. 1 col. 5 How Sandusky was Saved from Famine, An Historical Reminiscence -Years ago during a severe drouth, the city of Sandusky underwent a protracted famine. The waters were so low that vessels were unable to reach port. There were few fish in the bay and the wild game was meager. At the time, through the Western Reserve, there were wild hogs. During the drouth, large droves of these animals made their way to the lake. Sandusky Bay was a particularly favorite spot for them. There was a fine, red sand which covered the beach which when the wind blew was very dangerous to the residents. Thousands of hogs, in consequence of frequenting this spot became totally blind, from the sand, but they still managed to elude the hunters. One day a man took his gun and made a last effort to save his wife and children from starvation. For a long time, he hunted in vain

until he heard a noise. He took shelter behind a tree and watched as a line of wild blind hogs emerged from a thicket in Indian file. There was one lead hog and the second hog held in his mouth the tail of the first, and so on to the number of sixty and upwards. They were being led by the first hog which was the only one that could see. The man shot off the tail of the first hog and he ran away. The second hog was still holding the tail of the first in his mouth and the man took hold of the tail and started to lead the hog, the line continued to follow him all the way to a corral in town. The town had meat and was saved from famine.

p. 2 col. 6 Letter from Florida about the Army of Gen. Harney operating against the Indians in Florida. There are high sand dunes, with sand scrubs and prickly pears as high as a horse's belly. They almost ruined our horses' legs and often got in our own feet and legs. The same old story, our supplies were exhausted before we found the enemy. That has been the reason the Indians have remained so long in Florida. Gen. Harney hopes to negotiate with the Indians and has put up white flags all over the Indian country hoping to get an interview with them and he thinks to get them to migrate without further trouble.

p. 2 col. 4 Mormons Suffering – The Iowa City *Republican* learns that the Mormon emigrants, who left the camps near that city last fall, for Salt Lake, are suffering terribly on the plains, both from cold and want of provisions. Many have died. Not being able to dig the frozen ground the dead are left in heaps and covered with any brush or stones they can gather. Gov. Brigham has dispatched help.

P. 3 col. 2 Collins Morse's horse was killed. He was hitched to a wagon and fastened to a tree outside the County Infirmary. Becoming restive, the horse broke his halter and in running away left the back part of the wagon. Still dragging the front part of the wagon, he fell on his head on the frozen ground and died.

Rebellion in Utah – In January, a party of Mormons of high standing in the church, under the advice of Brigham Young, broke into the offices of the U. S. District Judge, and Clerk of the Supreme Court and carried away all the papers and books belonging to the Supreme Court. Massacre of White Settlers at Spirit Lake

From Mankato, Minnesota Territory, March 22, 1857. Spirit Lake is about 15 miles from Springfield, on the Des Moines River, and near the Iowa line. Mr. Markham, of Spirit Lake, found an entire family dead and no one in the next 4 houses he visited. Everything in those houses was thrown all over the floors. At the next house, he saw Indian tents pitched before the door and the house filled with Indians. He hid and slept in a snowbank and in the morning went to Springfield. Soldiers have been dispatched to the area from Fort Ridgely.

p. 2 col. 3 **The Mormons** - The fact is now becoming universally apparent, that

Mormonism owes no allegiance to any law, save to the edicts of their besotted leader. Brigham Young has set up this independent government in the territory of the United States. But what shall be done with them?

p. 2 col. 4 The *Conneaut Reporter* states that the home of Harvey Jennings was consumed by fire last Sat. A stick of wood, too long for the stove, was carelessly thrown out of door, without being extinguished. The wind kindled it afresh and the dwelling caught fire.

The next night, 3 large barns belonging to Eliphalet Mills, of the same township, were burned.

p. 2 col. 6 Another Fire – The dwelling house of Mr. Walter Roe, in Bazetta, was burned to the ground on the 31st ult. We learn that on the 3rd inst., 70 men, neighbors of Mr. Roe, commenced getting out timber to rebuild his house. *Warren Chronicle*

Apr. 30, 1857

p. 2 col. 4 Indian War in Minnesota; Fifty Whites Murdered! When the soldiers arrived at Springfield, they found that the Indians had been there. A band of Sioux had attacked the town, killed seven wounded 3 and carried off 4 women into captivity. Among those killed were William Wood, George M. Wood, Mr. Church and Josiah Stewart. The attack was without provocation and unexpected by the settlers. We do not know the names of the women, with the exception of Mrs. Marvel and a Miss Gardner. Reinforcements are being requested from the fort and volunteer companies are being formed.

Very Latest – Reports Contradicted

The St. Paul Pioneer of the 18th contains a letter from Gen. Shields, date Faribault, the 15th, which pointedly contradicts the rumors of the Indian murders at Mankato. The letter asserts that there is no hostility among the Indian tribes in the Territory.

One young woman with an infant told the captain when he asked why she came, replied that she had done so for Christ's sake, who had promised that if one forsook, father, mother and husband for him, she should receive more abundantly in this life, and in the world to come everlasting. The conduct of these Mormons on board the vessel was exemplary.

Indians of the Mississippi. The agent went to distribute provisions to some 700 famished Sioux, who were fairly frantic for food, when one of the bands brought Mrs. Marble, the woman in question to the agency, having purchased her from her captors. Several chiefs were sent out at once to look for the other women.

She told what happened to her. After the Indians came on March 13th and murdered her husband, she was taken to the Indian camp as a prisoner. At the camp were Mrs. Thatcher, Mrs. Nobel, Miss Garner, all of whom were taken prisoners at Spirit Lake. The Indians broke camp and moved to Heron Lake, 25 miles distant where they went off on an expedition leaving their squaws and the prisoners. The Indians murdered other people and took much plunder. They travelled 500 miles, being a month on the route. Each woman was made to carry over 50 lbs. perform degrading menial services of the camp. The snow was deep and the prisoners thinly clad. The prisoners suffered greatly from want of food; they were often forced to eat the wing feathers plucked from ducks and shriveled before the fire to save themselves from starvation. Mrs. Thatcher was in delicate health and not able to do the amount of work required of her. In crossing a stream on a log, she fell off and was shot by one of the Indians. Eventually, she reached Skunk Lake where Mrs. Marble was purchased and restored to civilized life. She is 25 yrs. of age and pleasant looking and is a native of Darke County, Ohio. She moved to Michigan 10 yrs. ago. She was twice married her first husband's name was Phips.

p. 2 col. 2 The Storm last Night – Fall of VanAmburg’s Tent – (from the *Columbus Journal*). About 8 o’clock last night a furious storm with thunder and lightning visited this city. The rain poured in torrents and the wind blew furiously. A large crowd of men, women and children were visiting Van Amburg’s Menagerie tent which exhibited on Broad St. The violence of the wind broke one of the poles which held up the canvass tent and it suddenly came down upon the crowd. Then came a scene which baffles description. The women screamed, the children cried, the lions roared, the animals made all the noise they could and there was a general rush to escape out of the show into the wind and rain. We believe no one was hurt but all were badly frightened.

p. 2 col. 4 Horse Stealing (from *Mahoning Register*) – Friday night, a valuable horse was stolen from the stable of Mr. Buchanan, near this place by Benj. Applegate Jr., formerly of Liberty, Trumbull Co. The horse was taken to Clarksville, Pa., and sold there. Officer McFadden and Stokeley Smith, of this place, pursued Applegate to Clarksville but he had fled to the interior of the state. The people of Clarksville have refused to give up the horse. Additional people from this place are going to investigate the matter.

From *Chardon Democrat* - David Osborn and his father, Alexander Osborn, were digging a well when the heavy bucket full of sand turned over and fell 25' onto David at the bottom of the well. It stuck him on the side of the head and the shoulder breaking his collarbone and otherwise seriously injuring him. He is in extreme suffering.

Warren Chronicle – The 10-month-old daughter, Cora Estella, of Dr. J. M. Stewart, Niles, drowned when she fell into a swill bucket in the back yard of the house. The bucket was nearly empty and the child was out of sight of the mother only a few minutes.

p. 2 col. 1 The Mysterious Delay in the Electronic Signal along the Atlantic Cable explained.

It appears that in the passage of one electronic signal across the ocean, not only is an appreciable time consumed, but the signal itself changes, in a degree, from its original character. A signal on a short line which would be perfectly sharp and prompt takes the form of a long wave over a longer distance. The ordinary instruments in telegraphing are not adapted to such peculiarities and therefor material alterations will have to be made. Hence the delay.

p. 3 col. 2 Capt. Harvey Huntoon, of Concord, brought into our office a single cucumber vine that grew on his back grounds, from self-sowing, and which measures 24' in length. The stalk just above the ground is 5" around. From this vine, there have been two pickings of a half bushel each time, and this season there have been picked from it 702 cucumbers.

This we think beats our friend, John M. Benjamin's old canary bird, which has hatched this season some 18 birds, and raised, 14 of them.

p. 3 col 3. **Spirit Cures** – Cures of local people effected by spirits though the mediumship of Mrs. P. M. Hickok, of this place (Painesville). Mrs. Jane Austin, wife of Wm. Austin, of Montville, Geauga Co., O., was taken sick in Feb., 1857, with erysipelas and then with other diseases. Four different physicians were employed to no effect—and she was given up as incurable. She was reduced to a living skeleton. Mrs. Hickok was called to take her under her care and in 2 weeks and 2 day she was able to travel to Painesville with Mrs. H. and is now fully restored. The facts are certified by Mr. Austin, Z. M. Strong, Martha Strong, and John A. Austin.

Mr. & Mrs. Dudley Crofoot, of LeRoy, Lake Co., both testify that 3 important cures have been effected in their family by sprits, through the agency of Mrs. Hickok, by the old apostolic method of “laying on hands.” The first was their daughter 20 yrs. old, who suffered a nervous complaint. The second case was their son 8 yrs. old who had fallen from a barn beam; the third was a son 18 yrs. old, who was very ill after measles. Horace Steele, Sr., Painesville

p. 3 col. 3 Perry - On the evening of the 20th, about 9:15 p.m., a very extraordinary meteor was seen. It started in the north with the appearance of a common shooting star except that it was less rapid in its flight. It had a wavy motion and was first a silvery color and gradually grew in intensity changing into a crimson globe, from which came a long brilliant flame—like the tale of a comet. The color changed and a broad band of blue flame came from the nucleus and trailed behind. By graduations the color changed from orange and pale yellow and was gone.

They answer that the South will never permit Abraham Lincoln to be inaugurated President of the U.S. And let the consequences be what they may—whether the Potomac is crimsoned in human gore, and Pennsylvania Ave. is paved ten fathoms in depth with mangled bodies...the loyal and constitutional South will never submit to such humiliation and degradation as the inauguration of Abraham Lincoln.

p. 3 col. 3 Kirtland – Kirtland has been in a dilapidated condition for a long time. When the Mormons removed from here some years ago, they left a large number of cheap houses. Most of these buildings have decayed; some with the land they occupied have been transferred to the adjoining farms, so that now the town does not look so ruinous as it did once. The Mormons are repairing the Temple. They have put on a new roof, commenced painting the outside woodwork and promise to restore the ancient splendor of the building.

On the return trip, he dropped a rope down to the Maid of the Mist and descended down to the boat, and then, hand over hand came up the rope again, did some more gymnastics and finally was back to the American side.

p. 1 col. 4 Horrible Affair – Seven White Men Burned to Death by the Washoe Indians (from the Sacramento *Union* from Virginia City)
These victims were a party of Norman H. Canfield's in Butte Co. About May 3rd, they left Stone's Crossing at Big Meadow, with the intention of visiting Winnemucca at his camp at Pyramid Lake to obtain his peaceful admission to prospect for silver in the vicinity of the lake. They went without weapons of any kind except a revolver which Canfield was persuaded to carry. A few days later, volunteers discovered where the Indian village had stood, the charred remains of seven men who had been burned to death. Canfield's body was identifiable. Canfield was from Cambridge, Washington Co., New York where he resided when he came to California in 1840. He was about 33 yrs. old at his death.

p. 2 col. 2 Reign of Terror – We have information from various sources that the leading men of the Southern States raving that every man who does

not sympathize with them in their politics is a foe to be expelled from their midst. Northern men traveling on business are obliged to make quick steps through these localities. The particularly exciting cause now is the prospect of the election of Lincoln. They affect to believe that the Republicans are slave liberators and are blurting the matter all over the country that if Lincoln is elected, the freeing of the slaves will begin on an extensive scale. They talk before their slaves and the slave population expect that they will be free if Lincoln is elected. This is not a pleasant thought in a country like the south where in many localities the negroes are largely in the majority.

The early settlers located here about 1800. They were mostly from Virginia, Kentucky and Tennessee. These native inhabitants of "Egypt" possess much good nature, unbounded hospitality and cordial friendship. Nine Mile Prairie, I learn, has been the hunting ground of two Indian tribes—the Kaskaskias and Shawnees. Here they met in mortal combat, the Kaskaskias coming off victorious. The name of their chief is preserved in the name of the village—Du Quoin. In the town there are now 15 or 20 houses, one store, and a Female Seminary. It is 280 miles south of Chicago. p. 3 col. 4 Spencer Phelps writes a letter to the editor that early in the present century a small burying ground was on the west bank of the Grand River, at no great distance below where S. Marshall now resides, near where one John Smith had pitched his tent. When digging graves, human bones were always found. In the year 1806, a portion of the bank caved off, which exposed two human skeletons. One was taken from the earth and put together; it was found by measurements to be 7 feet in length. There was a large lower jaw. The skull of the other was used by Smith's family for a soap dish and one thigh bone for a hammer to crack black walnuts. This country, it is evident, was inhabited at some period long ago.

p. 3 col. 2 Mr. J. S. Casement has been chosen Major of the 7th Regiment, which left Camp Taylor on Sunday morning.

There are a few more volunteers from Perry and Madison Counties, who have joined Capt. McIlrath's Cleveland Company B, "The Zouave Light Guards."

Hewitt, Emory – Madison

Harvey, Jacob – Perry

Parker, Ed. – Perry

Parks, Ed. – Perry

Stratton, F. H. – Perry

Geo. W. St. John, also of Perry, was in camp, and intended to enlist in the same company.

Frank H. Stratton was the 1st Lieut. In the "Wright Guards." He is now in the ranks.

The Zouaves, previous to these accessions, had a present from Clevelanders of an oil cloth blanket and a revolver each. Would it not be well for Madison and Perry to do as well by their recruits in the same company?

The Camp – The Chardon Company, Captain Paine, seem to have the most comfortable quarters of any who have volunteered. The hall of the Agricultural Society suits the Company, both as a sleeping and dining room. The fare is provided by E. T. Booth of the Cowles House and the Cooking Dept. is supervised by Mr. C. C. Pease.

p. 3 col. 4 Flag Raising at Unionville

There was a flag raising this afternoon in Unionville, followed by speeches and a band of Martial Music. Unionville has furnished about one dozen volunteers, who have united with the volunteers of Geneva to form a rifle company. A subscription is being circulated to raise funds to assist them. Unionville. April 27, 1861

From Washington

This city is becoming a vast military camp. There are already 22,000 to 25,000 troops assembled by call of the President. Some 3,000 soldiers are quartered in the Capitol Building. Yesterday, the President ordered that the regular army be increased by 25,000 men to serve 5 yrs., and that 40,000 volunteers be enlisted for 3 yrs. service. Also, that 18,000 sailors be added to the Navy.

p. 3 col. 3 Flag Raising at the Lake Erie Female Seminary – Handbills were posted about town announcing there would be a raising of the Stars and Stripes on the Female Seminary, that a procession would form at the Cowles House at 3 o'clock p.m. in which the Cornet Band and the Geauga Rifles would march. About a thousand persons were assembled. Speeches were made, the young ladies sang, and the Geauga Rifles went through with the skirmishing drill, and three cheers for the young ladies, and all dispersed. It was a short but glorious time.

p. 3 col. 4 Public Meeting at Kirtland – At a meeting held at District No. 2 in Kirtland on the 11th inst., it was resolved that all persons among them who sympathize with the rebels are unworthy of the protection of the laws and the sympathies of good men; Also, that a committee

of nine be appointed to wait upon any citizen of the community suspected of disloyalty, to require they conspicuously display the Stars and Stripes as an ensign of loyalty.

p. 3 col. 4 From Camp Dennison, May 18, 1861
W. D. S. sends a letter to the Editor. The 7th Regiment is still at Camp Dennison. Camp life is monotonous and there is a scarcity of wholesome provisions, and bad accommodations for the sick. Camp Dennison is a place to be dreaded by volunteers outside of it and hated by volunteers inside of it. Daily incidents confirm our poor fare. Last Tuesday a Co. of the 4th Regiment drew some tainted meat which they moved by wheelbarrow to the top of a hill and buried the putrid stuff, with the band playing "the dead march." Almost every day, companies or parts of companies refuse to drill unless they can get some more and better food. Stout and healthy men by semi-starvation and exposure are enfeebled and disheartened and then sent to an old filthy barn with bird excrecences that poison the atmosphere breathed by the sick, where haughty officials puff cigars around the lung-fever patients. There are about 10,000 men in Camp now. Don't place too much confidence in the many reports about our enlisting for 3 yrs. We have not been asked to yet.

He went to the Hotel and asked for something to eat; but it was not at meal time, and he was thoughtlessly turned away. He had money enough to buy a rope and bought it and hung himself. It is a case apparently of utter discouragement.

The house of Mr. James Raplee, situate at Branch's Corner in Madison, was entirely destroyed by fire on Tuesday evening. The fire originated, it is supposed, in a defect in the chimney.

p. 3 col. 4 Letter from Camp Dennison to the Editor, dated June 8, 1861. The momentous question of “three years enlistment” forms the topic of conversation and debate at Camp Dennison, just now. And here let me make a comment which observation justifies me in. The “three months men” consists of those, who dare go to war, but through bad health, pressing business requiring their presence home and such like causes, cannot; and those who can go, but through what—call it want of inclination, dare not go. Some of our best men are going home but lead them into the battlefield and the three months men of Ohio will show themselves true in the defense of their Nation’s honor. About 40 of our original company have enlisted for the war and are bound to see it through.

The *Press & Advertiser* of the 12th states the 7th Regiment received their uniforms and are pleased. The majority of our men received part of their uniforms and they are disgusted with them. The dress pants will not stand two weeks constant wear without giving way; and instead of being worth \$2.50 each are not worth 50 cents. Capt. Dyer talks of refusing to take anymore, and furnish the men with clothing from home. An effort is afoot to condemn the whole of the dress uniforms issued.

Two of our men, who came for 3 yrs. deserve to be mentioned for their unflinching patriotism (?), John A. Rockafellow and Joseph Sumner left for home yesterday—afraid to go it for the war.

Henry Wood, from Madison, of notoriety as a Fifer, has been appointed Fife Major of the 7th—bully for him.

From Grafton, Va. Friday, June 28th, 1861

The 7th Regiment left Camp Dennison on Wed., June 26th, at 6 o'clock p.m. We are uniformed, armed and mostly equipped. Dividing the train (45 cars) into 3 divisions and taking an extra engine along, we left Columbus on the Ohio Central R. R. for Bellair. At 2 o'clock this morning, left on the Baltimore and Ohio Road for Grafton, where we have arrived safe. We leave Grafton per orders immediately for the vicinity of Philippi, where about 7,000 rebels are encamped, and about to be surrounded by twice that number of our boys.

p. 2 col. 4 The celebration of the 4th at Weston, Va., by the 7th Ohio Regiment and the citizens was a cordial one. The ladies furnished the dinner. Good feeling prevails between the people and the soldiers.

The latest from the Ohio Seventh came to the Cleveland *Herald* by two musicians returned to Elyria. Co. D, Capt. Dyer, and Co. C., Capt. Crane, were at Weston. The balance of the regiment was at Glenville. They have taken a mill stored with grain and were grinding out a large quantity of grain stored in it and sending it to our troops at various places. The grain belonged to the rebels.

p. 3 col. 3 Army Correspondence; Weston Virginia, July 11, 1861. At 10 p.m. we left Weston on an 18 mile march through a mountainous country. A local man told us not to be surprised if we were fired into from the hillsides. We went carefully, silently and with measured tread over the hills; we would not see one yard ahead in the dark. We were glad when daylight came. At 6

a.m. we reached Camp and soon after Captain Dyer came in with some prisoners having been out scouting the night before. Several secessionists were taken, who on taking the oath of allegiance, were allowed to go. Monday morning a dispatch came and we were to return immediately to Weston. In one hour, we were packed up and on the road. Part of the time, the heat was intense, and several of our boys fell from the ranks unable to stand the march and the heat. A heavy thunder storm providentially arose and the rain came down in torrents, wetting us to the skin—but so cooling and refreshing, the rest of the march was made with considerable ease. Direct to us now at Clarksburg, Virginia.

In the wilds of Western Virginia, where apparently all the spare hills were thrown together at the time of creation, there is an encampment of over 3,000 Federal troops, under the immediate command of Col. E. B. Tyler, of the Seventh Ohio. A few miles South, toward Kanawha River, there is an encampment of rebel troops. For three days, they have been retreating as we have been advanced. No man in the world is as well acquainted with the county in which we are in as is our gallant Colonel. He is a noble man, and we love him. He places great confidence in Capt. Dyer. He is a brave, cool, determined man, who shrinks from no duty, fears no danger. A word about Major Casement. He is a man among men and ready for any emergency. It is proverbial among the boys, "Bully for the Major!" the "Snake Hunters" consist of a company of men of all kinds of clothing, rough-looking fellows armed with Sharpe's rifles and sabre bayonets; they act as scouts and answer the purpose admirably.

This is the county seat of Braxton County and the principal building here is the Court House. The town is built on the north side of the river Elk. Our camp is in the hills to the north. We have a battery stationed and earthworks. The object of these fortifications is to command the road up which Gov. Wise is expected to come on his retreat from Charleston. This morning the “Virginia Snake Hunters” brought in 23 rebels to camp. As soon as they are taken prisoners and brought up for trial, we find them good Union men: swear them in warn, them, let the go and they are mean secessionists. I think a stricter policy should be adopted towards the rebels. They take Union men and without trial send them to their long home. The general health of the troops is good. W. D. S. (William D. Shepherd)

p. 3 col. 4 Army Correspondence – dated Birch Mountain, Nicholas Co., Va., Aug. 5th, 1861

So many conflicting reports reach us of bloody battles never fought, and glorious victories never won, that we place little or no reliance on any news whatever. Today we hear that Manassas Gap is taken—tomorrow it is denied. Today we hear the Gov. Wise is just upon us with 20,000 men—tomorrow that he has retreated with shattered forces. These and such like reports come hourly into camp to be scattered like wild fire through the country, bearing with them mingled joy and misery. We think a serious responsibility rests on correspondents and reports, to send home strictly true accounts of matters. I cannot close without saying a few words regarding the people of northwestern Virginia. Hospitable, kind generous to a fault (I speak especially of the country people) and at the same time very ignorant: many of them never traveled out of their own county, “never had a dozen thoughts in all their life.” When I get through the war, I don’t want my “one hundred and sixty acres of land” in northwestern Virginia. The natives are short of coffee, of which we have an abundance, and therefore can trade satisfactorily to all concerned. Long ere you receive this you will have heard of the defeat of the Ohio 7th, at Cross Lanes (or Big Meadows, on Aug. 26th. On Aug. 23rd we were stationed at Cross Lanes; at 10 o'clock p.m. were ordered to pack up for marching and at 11:30 were on our way to Gauley Bridge. At 10 a.m. the next day we arrived at the mouth of Twenty Mile Creek, 15 miles from Cross Lanes. Here we encamped until Sat. morning the 24th when we were given marching orders to retrace our steps to Cross Lanes. Within 5 miles of Cross Lanes, we received information that a large body of the rebels had crossed the river and would make a

Sept. 12, 1861

stand. It was then sundown. We counter-marched back 3 miles to a road leading from the Ferro to Gauley Road. This was so to prevent us from being put off from Gauley Bridge if we had to retreat. After taking a cup of coffee, hastily prepared, we spread our blanket on the grass, and all not on picket duty enjoyed a good sleep. A friendly corn field furnished us breakfast.

At 6 in the morning, we moved towards Cross Lanes and the main body of the Regiment halted at the Creek, while Co. K was sent on in advance. About 10 a.m., we found out Co. K had come upon a body of the enemy's cavalry at the meeting house and fired on them. Co. A. was immediately sent on to their assistance. At 3 ½ p.m. the remainder of the regiment advance with the exception of Co. F, who remained to guard the wagons. We halted near the meeting house and remained until dark. Most of the Companies laid on the road all night, without blankets or covering. Co. H. occupied the meeting house and Co. D on the opposite side of the road in the woods. Our garments were wet through with perspiration and the night air was very cool. We suffered very much. In the morning, a cornfield provided breakfast and a wagon with crackers now camp up and were distributed. Before the men finished cooking their corn, shots were fired. We dropped everything and orders were given to advance down the road. As soon as we left the trees, we got a volley from the rebels. Capt. Dyer had us take cover under a fence. Co. K was retreating towards us and the rebels, regiment after regiment were endeavoring to flank us. Escape from annihilation seemed almost impossible. We jumped the fence into a meadow of long grass and this is where Capt. Dyer was killed. Fighting such odds with no artillery or cavalry was suicidal, for they were ten to our one. We commenced our retreat led by Major Casement. The retreat of the 7th occupied 3 ½ days. We had not a path to follow or a guide. W. D. S.

p. 3 col. 3 On Saturday last, the people mostly from Chester, Willoughby, Mayfield, and Kirtland by previous arrangement assembled on Waite's Hill to witness a military parade, to listen to public speeches and for social greeting and conversation and entertainment. The general estimate is that there were 3,000 people present. There were two brass bands—Willoughby and Mayfield. One very long table (I would not dare guess at its length) had been constructed to serve dinner and this was literally loaded down with viands, pastries, & C.

Social Gathering in Perry – There was a meeting of the different Sabbath Schools of Perry and two schools from Madison, which met in the beautiful pine grove near the Red Mill, tendered for the occasion by Mr. Jahial Parmley, at about 10 o'clock, Sept. 6th. Counting the scholars and their family members, more than 1,000 people were present by actual count. Mr. Samuel Wire, of Perry, was appointed Marshal of the Day, assisted by J. Coolidge. There were singing and speeches and then a feast.

Mr. C. C. Smith, of this place has been chosen Captain of the Lake Co. Cavalry company. The Co. left Painesville for Camp Wade on Monday.

Charleston, Sept. 12th: Yesterday, a battle took place at Cross Lanes, or rather at the Ferry near, between Rosecrans and Floyd. When within a mile and a half of the ferry, two masked batteries, one on each side of them, opened upon them, killing 150. The two regiments fell back and the artillery was brought up which fought the rest of the battle. The rebels retreated across the river in great confusion; rebel losses estimated at 500.

p. 2 col. 4 Army Correspondence – Extract from a letter from John S. Ellen, formerly of this place, and now Sergeant-Major of the 23rd Ohio Regiment, dated Camp Scott, Carnifax Ferry, Sept. 13, 1861. We have been on the tramp for over 3 weeks, over mountain, through valleys and across rivers. On Sept. 8th, the three Brigades of our Army under Gen. Benham, Col. McCook and Col. Seammon were march more closely together than previous. On the 10th we found the enemy entrenched on a high bluff at Carnifax Farry, on the Gauley River. At about 3 o'clock firing started; the came the booming of cannon. First the Tenth Ohio was called in, then the Twelfth Ohio, Col. Lowe. The Col. was killed at the first volley. McMullen's battery of howitzers took position and commenced firing. It is

generally admitted that his battery did more to cripple the enemy than all the other force in the action. Infantry could affect little as the enemy's fortifications were more than breast high and built on the hills. At dark the troops had to be withdrawn. In the morning, the enemy had left. They must have left hurriedly as they left much in their camp. It was near this camp that the Ohio 7th was defeated and scattered. Capt. Dyer's sword was found with on one of the Cavalry captured at Summersville on the morning of the 10th. Lieut. Warren has it in his possession and is intending to send it home to the family of the deceased. The Lake County boys belonging to McMullen's batters were in the midst of the fight. The Federal loss was 15 killed and 70 wounded.

Of these, 16 are males, 17 females; 13 are minors, 4 are babes or smaller children; 8 attend school, 6 are invalids, 12 are insane and 10 do more or less labor. p. 1 col. 6 Summary of War News from St. Louis, Oct. 1, 1861

Rev. Mr. Robinson, a missionary teacher in the Cherokee Nation, has arrived. He reports Chief John Ross, of the Cherokees, finally succumbed to the secession pressure. The Confederate Commissioner assumed payment of annuities received by the Cherokees from our government.

The Creeks have raised 1,000 men for service in the Confederate Army; and the Cherokees have armed a Home Guard of 1,500 strong.

p. 2 col. 2 Our troops are still being uniformed in gray the same as the Rebels.

p. 3 col. 3 Army Correspondence – from Camp Wade, near Cleveland Headquarters, 2nd Cavalry, O. V., Oct. 5, 1861

On Friday, the quarters of Co. G. were enlivened by the arrival of a delegation from Mentor, who brought with them an abundance of “creature comforts” and we had a feast and leftover of at least 12 baskets full to have the following day.

Charles Kniffin, of LeRoy, sent us a BIG cheese. The ladies of Painesville deserve many thanks for their generous donation of quilts and blankets which are a source of great comfort.

p. 3 col. 2 Mr. Eleazer Burridge, who has been so active in getting up recruits for Col. Morse’s Co.,

has expended hundreds of dollars of his own means in rigging out his recruits with the means to support their families. We have no terms that would be too highly commendatory of the patriotic conduct of Mr. Burridge.

p. 3 col. 3 Sylvester Burroughs, of Geneva, has been appointed Assistant Surgeon to the 29th Regiment.

p. 2 col. 4 Army Correspondence – From Captain
 Kenney's Battery

We are now encamped in a small town in the
 southern part of Kentucky, only about 45 miles
 from the Cumberland Gap. We left Camp Dick
 Robinson Oct. 22nd. And after 3 days hasty march
 arrived at Wild Cat Mountain immediately after
 the battle at that pace. On the 22nd, we left Camp
 Wild Cat and came on to Camp Calvert, three
 miles rear of this place. We have been lying in
 camp here since the 27th. There are now about
 2,500 Tennesseans here, about 500 women and
 children, and nearly 2,000 regularly enlisted
 soldiers and more coming every day. The
 question with us seems to be whether we are to
 move forward or fall back for winter quarters.
 M. B. G.

p. 3 col. 3 Eugene A. Osborn has received the
 appointment of Lieutenant and is expected
 home soon to recruit for a battery requiring 136
 men.

From the Jeffersonian *Democrat* -Elder Thomas
 Stephenson, a Baptist clergyman of Chester,
 Geauga co., died by suicide. He was between 60
 – 70 yrs. and universally respected. He had been
 subject to temporary seasons of insanity.

Willoughby – Extracts from a private letter from
 Lieut. Hastings. In the Cleveland *Leader*, our
 officers are catching "Jesse" an account of our
 sick. It is all a falsehood. Our sick have been
 treated as well as could be expected under the
 circumstances. As to our deserting our privates
 in that severe storm is another willful lie. During
 that storm our Company had possession of a
 store, and any bed was selected after all the rest
 had laid down, when I found a small space under
 the counter and slept. We have plenty of good
 warm clothing and our men have had a great
 plenty to eat, such as it is. Our Company of 90

Nov. 14, 1861

men report 50 for duty—they are not all sick, but ailing, and not able to stand guard duty. They have a low form of fever and dysentery. Our Surgeon has no medicine suitable for such cases, and cannot get any as the Surgeons at Cincinnati do not send the medicine when the proper requisition has been made.

We are sorry to learn of the death of James Blish, late of Mentor. He was Orderly Sergeant of Co. I, 23rd Regt. O. V., and died of a fever contracted while in service in western Virginia. The remains were brought to Mentor and interred.

p. 1 col. 6 From the *Conneaut Reporter*
Ezra Dipple, a well-known citizen of this town (Conneaut) and for many years engaged extensively in the management of bees, told a story of a battle among his bees. He had several swarms of bees, almost equally divided on the east and west sides of his house. Sunday afternoon about 3 o'clock, the weather being warm and the windows open, his house was suddenly filled with bees, which forced the family to flee at once to the neighbors. Mr. D., after getting well protected against the bees, proceeded to take a survey and, if possible, to learn what had disturbed them. The seventy swarms appeared to be out, and those on one side of the house were arrayed in battle against those on the other side. They filled the air, covering a space of more than an acre, and fought desperately for more than 3 hours;

and while at war no living thing could exist in the vicinity. They stung a large flock of Shanghai chickens, nearly all of which died, and persons passing along the roadside were obliged to make haste to avoid their stings.

A little after 6 o'clock, quiet was restored and the living bees returned to their hives, leaving the slain covering the ground. All but two young swarms were entirely destroyed. Neither side was victorious and they only ceased on the approach of night and from utter exhaustion. Those most conversant with bee management never before witnessed or heard of such a spectacle as this.
