

## A BRIEF HISTORY OF LARAMIE COUNTY, WYOMING

In early 1867, Laramie County, Wyoming was created before Wyoming was a state or even a territory by the Dakota Territorial legislature in direct response to the announcement that the first transcontinental railroad would cross the southern portion of the territory. Within the year, Laramie County established a functioning government and designated Cheyenne as the county seat. The Wyoming Territory was organized in 1869 and on July 10, 1890, Wyoming became the 44<sup>th</sup> state. The military, railroad and mining operations as well as the federal Homestead Act brought immigrants to Laramie County and Wyoming.
